

List of tests

Matrix	Possible tests	Accredited/Not accredited
Meat and meat products		
Fresh chilled meat Raw meat	Total plate count	<i>Accredited</i>
	Total coliform count	<i>Accredited</i>
	<i>E. coli</i> count	<i>Accredited</i>
	<i>S. aureus</i>	<i>Accredited</i>
	<i>Salmonella</i> species	<i>Accredited</i>
Raw sausages, burger, ground beef and other comminuted raw meat	<i>Campylobacter</i>	<i>Accredited</i>
	Yeast and Mould count	<i>Accredited</i>
	Tests same as raw meat	
Meat and meat products preserved by curing and pickling	Total plate count	<i>Accredited</i>
	<i>S. aureus</i>	<i>Accredited</i>
	Yeast and Mould count	<i>Accredited</i>
	<i>C. perfringens</i>	<i>Accredited</i>
	Total coliform count	<i>Accredited</i>
	<i>E. coli</i> count	<i>Accredited</i>
Cooked meat product	Total plate count	<i>Accredited</i>
	<i>C. perfringens</i>	<i>Accredited</i>
	<i>Salmonella</i> species	<i>Accredited</i>
	<i>E. coli</i> count	<i>Accredited</i>
	<i>S. aureus</i>	<i>Accredited</i>
Poultry and poultry products		
Refrigerated poultry and poultry products	Total Enterobacteriaceae	<i>Accredited</i>
	Total plate count	<i>Accredited</i>
	<i>Salmonella</i> species	<i>Accredited</i>
	<i>Campylobacter</i>	<i>Accredited</i>
	<i>S. aureus</i>	<i>Accredited</i>
	<i>E. coli</i> count	<i>Accredited</i>
	<i>Listeria monocytogenes</i>	<i>Accredited</i>
Cured and smoked product, poultry sausage	<i>Salmonella</i> species	<i>Accredited</i>
	The same applies for cured and smoked meat and analogous red meat products	
Egg and egg products		
Shell eggs	Total Enterobacteriaceae	<i>Accredited</i>
	Total coliform count	<i>Accredited</i>
	<i>Salmonella</i> species	<i>Accredited</i>
	Yeast and Mould count	<i>Accredited</i>
Pasteurised whole egg	Total plate count	<i>Accredited</i>
	Total coliform count	<i>Accredited</i>
	<i>E. coli</i> count	<i>Accredited</i>
	<i>Salmonella</i> species	<i>Accredited</i>
Fish, shellfish and crustacean		
Salt water fish	Total plate count	<i>Accredited</i>
	Total coliform count	<i>Accredited</i>
	<i>E. coli</i> count	<i>Accredited</i>
	<i>S. aureus</i>	<i>Accredited</i>
	<i>Vibrio</i> species	<i>Accredited</i>

Matrix	Possible tests	Accredited/Not accredited
Fresh water fish	Same as for salt water fish but excluding salt-tolerant organisms	
	<i>Salmonella</i> species	Accredited
Smoked, marinated and pickled fish	<i>C. perfringens</i>	Accredited
	Yeast and Mould count	Accredited
	<i>L. monocytogenes</i>	Accredited
Shellfish and crustacean	Total plate count	Accredited
	Total Enterobacteriaceae	Accredited
	<i>Vibrio</i> species	Accredited
Cooked fish product	Same as cooked meat product	
Pre-cooked battered and or breaded fish products	Total plate count	Accredited
	<i>E. coli</i> count	Accredited
	<i>Salmonella</i> species	Accredited
	<i>C. perfringens</i>	Accredited
	Yeast and Mould count	Accredited
	<i>S. aureus</i>	Accredited
Milk and milk products		
Liquid raw milk intended to be heat-treated	Total plate count	Accredited
	Total Enterobacteriaceae	Accredited
	Total coliform count	Accredited
Pasteurised milk	Total coliform count	Accredited
	Total plate count	Accredited
	<i>S. aureus</i>	Accredited
	<i>Salmonella</i> species	Accredited
	<i>L. monocytogenes</i>	Accredited
Sterilised milk	Total plate count	Accredited
	Total coliform count	Accredited
Milk powder	Total plate count	Accredited
	Total coliform count	Accredited
	Yeast and Mould count	Accredited
	<i>S. aureus</i>	Accredited
	<i>C. perfringens</i>	Accredited
	<i>Salmonella</i> species	Accredited
	<i>L. monocytogenes</i>	Accredited
Canned, concentrated milk	Total plate count	Accredited
	Yeast and Mould count	Accredited
	<i>C. perfringens</i>	Accredited
	<i>L. monocytogenes</i>	Accredited
	<i>Sterility and Stability</i>	Not accredited
Cream (Pasteurised cream)	<i>Salmonella</i> species	Accredited
	<i>L. monocytogenes</i>	Accredited
	Total plate count	Accredited
	Total coliform count	Accredited
	<i>S. aureus</i>	Accredited

Matrix	Possible tests	Accredited/Not accredited
Fermented milk	Coliform test is indicative of the standard of hygiene in plant only when performed on samples within 24 hours of manufacture as the coliform bacteria will die on storage.	Accredited
Cheese	Total coliform count	Accredited
	<i>L. monocytogenes</i>	Accredited
	<i>S. aureus</i>	Accredited
	Yeast and Mould count	Accredited
	<i>C. perfringens</i>	Accredited
	<i>Salmonella</i> species	Accredited
	<i>E. coli</i> count	Accredited
Hard cheese from raw or thermised milk	Same as for cheese	
Hard cheese from pasteurised milk	Same as for cheese	
Soft cheese from raw or thermised milk	Same as for cheese	
Soft cheese from pasteurised milk	Same as for cheese	
Butter	Total coliform count	Accredited
	<i>E. coli</i> count	Accredited
	<i>L. monocytogenes</i>	Accredited
	<i>Salmonella</i> species	Accredited
	Total plate count	Accredited
	Yeast and Mould count	Accredited
Ice-cream and frozen desserts	Total plate count	Accredited
	Total coliform count	Accredited
	Yeast and Mould count	Accredited
	<i>S. aureus</i>	Accredited
	<i>Salmonella</i> species	Accredited
	<i>L. monocytogenes</i>	Accredited
	<i>E. coli</i> count	Accredited
Fruits, nuts and vegetables		
Refrigerated prepared salads	<i>L. monocytogenes</i>	Accredited
	<i>Salmonella</i> species	Accredited
	<i>S. aureus</i>	Accredited
	Total plate count	Accredited
	Total coliform count	Accredited
	<i>E. coli</i> count	Accredited
	Yeast and Mould count	Accredited
Fresh vegetables to be eaten raw (salad vegetables, bean sprouts, prepared delicatessen salads)	Total plate count	Accredited
	<i>E. coli</i> count	Accredited
	<i>L. monocytogenes</i>	Accredited
	<i>Salmonella</i> species	Accredited
	Total coliform count	Accredited
Blanched frozen vegetables	Total plate count	Accredited
	Total coliform count	Accredited

Matrix	Possible tests	Accredited/Not accredited
	<i>S. aureus</i>	<i>Accredited</i>
Dried vegetables	Total coliform count	<i>Accredited</i>
	Yeast and Mould count	<i>Accredited</i>
	<i>B. cereus</i>	
Nuts	Total coliform count	<i>Accredited</i>
	Yeasts and Mould count	<i>Accredited</i>
	<i>Salmonella</i> species (if there is no further heat treatment)	<i>Accredited</i>
	<i>C. perfringens</i>	<i>Accredited</i>
Fruit		
Prepared fresh fruit salad	<i>Salmonella</i> species	<i>Accredited</i>
	<i>S. aureus</i>	<i>Accredited</i>
	<i>E. coli</i> count	<i>Accredited</i>
	Total coliform count	<i>Accredited</i>
Fruit paste, purees, comminuted fruit	Yeast and Mould count	<i>Accredited</i>
Fruit juice and squashes	Yeast and Mould count	<i>Accredited</i>
	<i>E. coli</i> count	<i>Accredited</i>
Frozen fruit juice	Total plate count	<i>Accredited</i>
	Yeast and Mould count	<i>Accredited</i>
Sugar and sugar syrups	Total plate count	<i>Accredited</i>
	Yeast and Mould count	<i>Accredited</i>
Salted, pickled and fermented vegetables	Yeast and Mould count	<i>Accredited</i>
	<i>S. aureus</i>	<i>Accredited</i>
	Total coliform count	<i>Accredited</i>
	<i>Vibrio</i> species	<i>Accredited</i>
	<i>E. coli</i> count	<i>Accredited</i>
Spices	Total plate count	<i>Accredited</i>
	Yeast and Mould count	<i>Accredited</i>
	<i>B. cereus</i>	<i>Accredited</i>
Alcoholic beverages		
Alcoholic beverages	Yeast and Mould count	<i>Accredited</i>
Bread, cakes and bakery goods		
Bread, cakes and bakery goods	Total plate count	<i>Accredited</i>
	<i>E. coli</i> count	<i>Accredited</i>
	<i>S. aureus</i>	<i>Accredited</i>
	Yeast and Mould count	<i>Accredited</i>
	Total coliform count	<i>Accredited</i>
	<i>B. cereus</i>	<i>Accredited</i>
	For fillings and toppings, check section appropriate to the constituent	
Flour	Total coliform count	<i>Accredited</i>
	Total plate count	<i>Accredited</i>
	<i>C. perfringens</i>	<i>Accredited</i>
	Yeast and Mould count	<i>Accredited</i>
	<i>B. cereus</i>	<i>Accredited</i>
Pasta	Same as flour	
Convenience meals	Total plate count	<i>Accredited</i>

Matrix	Possible tests	Accredited/Not accredited
	Total Enterobacteriaceae	<i>Accredited</i>
	Total coliform count	<i>Accredited</i>
	<i>E. coli</i> count	<i>Accredited</i>
	<i>S. aureus</i>	<i>Accredited</i>
	<i>L. monocytogenes</i>	<i>Accredited</i>
	<i>C. perfringens</i>	<i>Accredited</i>
	<i>Salmonella</i> species	<i>Accredited</i>
	<i>Campylobacter</i>	<i>Accredited</i>
	<i>Vibrio</i> species	<i>Accredited</i>
	<i>B. cereus</i>	<i>Accredited</i>
Canned foods		
Canned foods	<i>Salmonella</i> species	<i>Accredited</i>
	<i>C. perfringens</i>	<i>Accredited</i>
	<i>Campylobacter</i>	<i>Accredited</i>
	<i>E. coli</i> count	<i>Accredited</i>
	<i>Vibrio</i> species	<i>Accredited</i>
	<i>S. aureus</i>	<i>Accredited</i>
	<i>L. monocytogenes</i>	<i>Accredited</i>
	Sterility and stability	<i>Not accredited</i>
Water		
Water	Total plate count	<i>Accredited</i>
	Total coliform count	<i>Accredited</i>
	Intestinal enterococci	<i>Accredited</i>
	<i>E. coli</i> count	<i>Accredited</i>
	Sulphite reducing <i>Clostridia</i>	<i>Accredited</i>
	<i>C. perfringens</i>	<i>Not accredited</i>
	<i>P. aeruginosa</i>	<i>Accredited</i>
	<i>Salmonella</i> species	<i>Accredited</i>
Bottled water	Same as for Water	
Feed		
Animal feed	Total plate count	<i>Accredited</i>
	Yeast and Mould	<i>Accredited</i>
	<i>Salmonella</i> species	<i>Accredited</i>
