and Fisheries  
(Agro-Industry and Food Security Division)**

**Addendum No. 2**

**Invitation for proposals through Open Advertised Bidding for Consultancy Services for  
Proposal and Design of a Pig Waste Treatment Facility for Conversion of Biogas to  
Electricity at the St Martin Pig Farms**

**Procurement Ref No: MOAIFS/Q30/2025-26/CS/OAB**

Please refer to the Invitation for Proposals launched on 30 April 2026 and pre-proposal conference held for **Consultancy Services for Proposal and Design of a Pig Waste Treatment Facility for Conversion of Biogas to Electricity at the St Martin Pig Farms**.

2. Following request for clarifications from potential bidders, please find below the corresponding information:

S/N	Clarifications	Responses
1.	Whether Lead Firm needs to demonstrate adequate capability in: (a) Solid Waste Management with focus on waste recovery for energy or (b) Wastewater Management with a focus on waste recovery for energy or (c) Environmental Management?	Bidders are requested to refer to Section 7.0 "staffing requirements for the consultancy" SN 1 to SN 10 of the Request for Proposal (pages 68 to 71 of the bidding document).
2.	Will the experience in the field of wastewater treatment be considered and be given due marks?	Bidders are requested to refer to:- i. Section 2: Instructions to Consultants of the bidding document on pages 29 to 34; and ii. Section 5. Terms of Reference of the bidding document on pages 66 to 71

3.	Are the professionals supposed to be experienced in wastewater or waste management?	Bidders are requested to refer to Section 2;- Instructions to Consultants of the bidding document on Pages 29 to 34.
4.	Whether the project placed greater emphasis on solid waste management rather than wastewater treatment?	The project encompasses both components, noting that pig waste consists of sludge comprising of both solid and liquid matter. The project would involve an integrated process combining wastewater treatment and solid waste transformation.
5.	Whether land has been identified and is available within the vicinity for the proposed treatment facility?	A suitable plot of land should be identified by the successful consultant and that a land surveyor from the consultant's side will be required.
6.	Whether firms/engineers registered from the United Kingdom and India would be acceptable for the participation in the project?	Yes, it will be acceptable. At time of award, the consultancy firms should liaise with the Council of Registered Professional Engineers (Mauritius) for temporary registration for the duration of the contract.
7.	Whether the collection and recycling of pig waste would be undertaken by two separation entities?	The project is intended to be developed as integrated facility, will all processes consolidated within a single plant located on a designated site.
8.	Whether the arrangement would involve one company responsible for both collection and recycling or two (2) entities, noting that the Expression of Interest had made specific reference to waste collection?	The EOI process and the recruitment of consultant are distinct exercises/projects. The successful consultant under this procurement exercise would be expected to undertake the design, surveys, data collection, feasibility studies and overall project conceptualization. The primary focus of the project would be the collection and conveyance of waste to a designated site for subsequent treatment and conversion into usable output/energy
9.	Whether a firm without a local presence or partnership with a Mauritian company would be eligible to participate in the project?	Bidders should refer to ITB 3.3 of the bidding document in this regard. For further clarification at the time of award, the selected bidder should contact the Construction Industry Agency (CIA), Mauritius.

10.	Whether the budget for the assignment can be disclosed?	No
11.	Is it possible to extend the deadline for submission till 29 <sup>th</sup> June 2026 as the mobilization of experts from abroad will be necessary?	No

3. Bidders are also requested to take note that the closing and opening dates have been fixed for **Friday 12 June 2026 at 14 00 hours.**
